Asheville-based Manna Foodbank works with Democracy NC to help grow voting access in Western North Carolina.
Quiz: Paper or Digital?

What should your organization’s voter engagement strategy look like and which Nonprofit VOTE resources can help?
Who are you trying to reach?

A: Low-income voters and those without state IDs, older voters, or voters who use your services.

B: Younger voters, college students, or the friends and families of voters connected with your organization.

C: Your staff, volunteers, or supporters of your organization or cause or voters who speak a language other than English at home.
Where or how do you interact with them?

A: In-person when providing services (either at your organization, clients’ homes, or a recurring venue)

B: In-person at community events, while door knocking, or at neighborhood hot spots (like a bus station, grocery store, or public park)

C: Via your website, newsletter, social media, text campaigns, or phone call
What strengths or limitations exist?

A: Strengths - Your staff is good at walking clients through paperwork, you have a waiting area, or staff and clients have one-on-one time. Limitations - Internet service in your area is unreliable or your staff is less comfortable with digital platforms.

B: Strengths - Voter-facing staff or volunteers who can wear voting swag (like buttons, stickers or lanyards). Limitations - staff or volunteers are too busy to assist voters one-on-one or are trying to minimize close interactions for health/safety reasons.

C: Strengths - Tech-savvy staff/volunteers, access to a large social media audience or influencers. Limitations - there are restrictions on who can conduct voter registration in your state or you rarely have in-person interactions with voters.
Results

*Mostly As:* Try a paper-based strategy. Your staff and voters may have the best luck with good old-fashioned paper and pen. Develop a relationship with your local elections office and/or League of Women Voters, who may be able to assist with voter registration forms, training, or volunteers.

*Mostly Bs or a mix:* Consider blended organizing. Add digital components to your in-person efforts by putting links and QR codes on your materials, such as a lanyard card, so voters can engage from their own device. Have paper on hand for when internet access is spotty, devices aren’t working, or a voter feels more comfortable filling out a paper form.

*Mostly Cs:* Focus on digital communications. From your state’s voting website, to online voter guides, to motivational apps, there is plenty of content to share.

What format and timing work best?

• In person is best if that is how staff/volunteers will encounter voters
• Set aside 30-60 minutes
• Review the registration form if you are doing paper-based
• Work in groups on common scenarios and responses
